## M. Luis Products is proud to announce the opening of a second asphalt manufacturing facility in the Baltimore Metropolitan Area, Glen Burnie

**Baltimore, MD** – M Luis Products announces the expansion of its asphalt manufacturing business into the Baltimore region, by opening operations at 101 Dover Road, NE in Glen Burnie, Maryland.

M. Luis is one of the fastest-growing, middle-market asphalt manufacturing companies. According to the Department of Commerce, M. Luis Products is a leader in their field as the only women *and* minority-owned asphalt manufacturer in the United States. We are MDOT and WBENC certified. Our Glen Burnie facility will provide state of the art asphalt mixes, aggregates, asphalt materials and cold mix.

“We are excited to expand our manufacturing capabilities to Baltimore. We are thrilled to add support and added value to the existing contracting community. We are customer-centric and customer-focused, and are looking forward to being a part of contractors’ integrated diverse spend supply chain.” said Cidalia Luis-Akbar, CEO and Owner.

M. Luis’ plant will produce up to 300 tons of asphalt per hour. It has the capability to service our clients’ needs twenty-four hours a day, seven days a week. Contractors, local municipalities, site developers, private-public partnerships, Maryland Department of Transportation and federal agencies will be able to meet their MBE/WBE contract goals by purchasing from our plant in Glen Burnie.

“As the economy continues to recover and infrastructure becomes a much needed priority, we are looking forward to continuing our investment in local job creation and to being a positive impact to the community. We are very excited about this opportunity” said Natalia Luis, COO and Owner.
